Workplace Violent Incidents at Hospitals July 1, 2017 through September 30, 2017

Annual Report Posted in January 2018

Background

Labor Code section 6401.8(c)¹ requires the Division of Occupational Safety and Health ("Cal/OSHA") to post every year on its website a report containing information regarding violent incidents at hospitals, based on reports submitted by the hospitals. Cal/OSHA's report must include the total number of incidents reported, which hospitals submitted reports, the outcome of any related inspection or investigation, the citations levied against a hospital based on a violent incident, and recommendations for the prevention of violent incidents in hospitals.

California Code of Regulations, title 8, section 3342(g) requires hospitals to submit reports to Cal/OSHA regarding any incident involving either of the following:

- (A) The use of physical force against an employee by a patient or a person accompanying a patient that results in, or has a high likelihood of resulting in, injury, psychological trauma, or stress, regardless of whether the employee sustains an injury;
- (B) An incident involving the use of a firearm or other dangerous weapon, regardless of whether the employee sustains an injury.

For reporting purposes, the definition of "injury" is any injury that results in death, days away from work, restricted work or transfer to another job, medical treatment beyond first aid, loss of consciousness, or significant injury or illness diagnosed by a physician or other licensed health care professional.

The start date for hospitals to submit their reports to Cal/OSHA was July 1, 2017. This initial report prepared by Cal/OSHA is based on the reports received from hospitals in the three-month period July 1, 2017 through September 30, 2017. In subsequent years, Cal/OSHA will post its annual report based on reports received from hospitals in the preceding 12-month period October 1 through September 30.

Data collection

All hospitals licensed by the California Department of Public Health as a general acute care hospital, an acute psychiatric hospital, or a special hospital are required by section 3342 to report

¹ Added by Statutes 2014, chapter 842, section 1 (Senate Bill 1299).

incidents of workplace violence to Cal/OSHA. These reports are only accepted through the online *Workplace Violent Incident Reporting System for Hospitals* developed by Cal/OSHA.

Cal/OSHA requires hospitals to identify the hospital facility where the incident occurred when making a report. For reporting purposes, a "hospital facility" is (1) an entity that has been assigned a unique identification number by the California Office of Statewide Health Planning and Development (OSHPD) and includes all services and service locations covered by the OSHPD identification number; and (2), is licensed by the California Department of Public Health as a general acute care, acute psychiatric, or special hospital. During the period covered by this report, the OSHPD facility listing included 487 open hospital facilities meeting the above criteria. There were no licensed special hospitals in California during the reporting period.

Results

Cal/OSHA received a total of 2,177 incident reports from 257 hospital facilities during the period July 1, 2017, through September 30, 2017. See Tables 1 and 2 below (pages 4–10). This figure does not include reports that were marked as duplicate, erroneous, or replaced by a corrected report.

Each violent incident report contains the following information:

- Name and address of the hospital where the incident occurred;
- Date, time, and location of the incident;
- Brief description of the incident;
- Number of employees injured (if any) and the types of injuries.
- Whether security or law enforcement was contacted;
- Whether there is a continuing threat, and if so, what measures are being taken to protect employees;
- Whether the incident was reported to the nearest Division district office as required in section 342. (See below regarding incidents reported under section 342.)

Inspections related to violent incidents at hospitals

The reporting under section 3342(g) allows the public to be informed about violent incidents at hospitals. This process is separate from the reporting of workplace or work-related fatalities and serious injuries and illnesses under section 342. Cal/OSHA must investigate the reports made under section 342 unless determined unnecessary. In contrast, the reporting of a violent incident under section 3342(g) does not necessarily trigger an enforcement inspection.

During the three-month period July 1, 2017, through September 30, 2017, Cal/OSHA completed zero inspections related to violent incidents at hospitals and issued zero citations related to those inspections. Any inspections related to violent incidents at hospitals that were still being conducted during the three-month period July 1, 2017, through September 30, 2017, will be discussed in Cal/OSHA's next annual report.

Recommendations for the prevention of violent incidents at hospitals

- Cal/OSHA recommends that all employers, employees, and safety advocates recognize violence as a major occupational hazard and incorporate workplace violence prevention into their occupational safety programs and campaigns. In the U.S., violence and other injuries by persons or animals increased 23 percent from 2015 to 2016 to become the second-most common cause of occupational fatalities in 2016.²
- 2. Cal/OSHA recommends that employers review their procedures for reporting workplace violence incidents. An incident must be reported <u>regardless</u> of whether it resulted in injury. Please see subsection 3342(d) and the FAQs on workplace violence reporting at: http://www.dir.ca.gov/dosh/documents/hospital-workplace-violence/faq.pdf. Cal/OSHA depends on accurate reporting of workplace violent incidents to help provide relevant information to employers and employees on the prevention of workplace violence.
- 3. Cal/OSHA recommends that employers consult the following resources to assist in establishing a workplace violence prevention program, which under section 3342 must be accomplished by April 1, 2018:
 - Cal/OSHA's "Guidelines for Security and Safety of Health Care and Community Service Workers": http://www.dir.ca.gov/dosh/dosh publications/hcworker.html
 - Cal/OSHA's "Injury & Illness Prevention Model Program for Workplace Security": https://www.dir.ca.gov/dosh/dosh publications/iipsecurity.html
